Flat Swivel Bases

2 new swivel bases in a polished stainless finish

Available in either round or square versions. Both have a total height of 200mm with 10mm thick bases, clad in polished stainless steel.

The top plate is supported by a 65mm diameter column that is easily assembled to the base by 3 hex head bolts.

The top plate is 250mm square with 12mm diameter fixing holes (180mm between centres).

The swivel mechanism, built around 2 heavy duty ball bearings, provides consistently smooth motion for your product.

AL3382P
Square Metal Base
Height : 200 mm
Width : 550 mm

AL3383P
Round Metal Base
Height : 200 mm
Diameter : 580 mm
