

ALPHA 2-MOTOR STANDARD

Lift Mechanism

Ergonomically designed, dual-motor lift mechanism that can easily retrofit into current styles.

Alpha 2-Motor Standard Lift Mechanism, featuring a powerful LPDrive two-motor system, is an ergonomically designed lift mechanism that elevates occupants to a maximum position for easier standing. It can easily retrofit into current styles without the need of a frame change (depending on current model rear cross rail) – providing the option to extend a product line or reduce SKUs. The Alpha 2-Motor Standard Lift Mechanism is also equipped with spring-loaded ottoman brackets to prevent entrapment and maintains a weight capacity of 450 lbs. (226 kgs). It can be combined with motorized headrest and lumbar options and is available in a wide range of seat widths.

- METAL-TO-THE-FLOOR
