GST245

Dimensions: H245

Stool lid gas strut, available in:

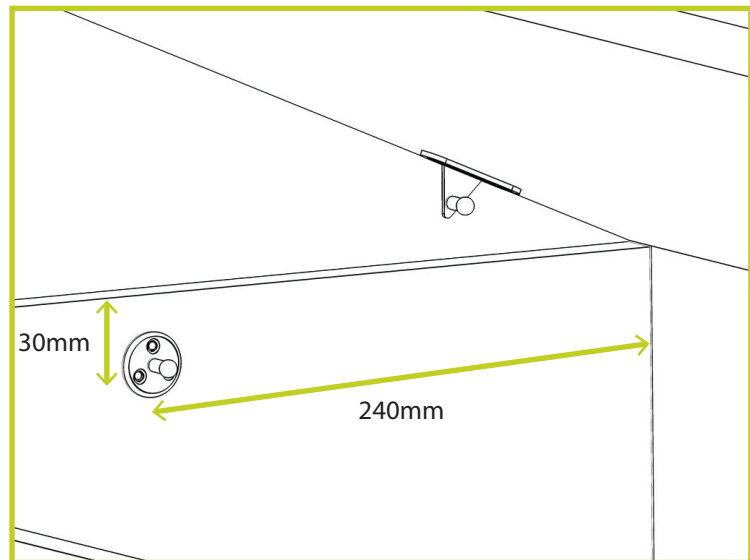

GST245-100NA

GST245-150NA

Packed in: 100pcs/box

80 degree angle (approx)

The inside fixing should be placed 30mm down from the edge and 240mm from the back of the box.

Measurement A:

The fixing on the lid should be placed 100mm away from the hinged edge of the lid.

Measurement B:

The fixing should be placed 3mm from the near side edge (plus wood thickness).

In this example, the wood is 18mm thick, making the total distance from the edge 21mm.
